

Turning Dollars into Dreams

To turn dollars into dreams
Is not as difficult as it seems
One just has to truly believe
That the ideas we conceive
Will be accepted by mankind
And if not immediately, we will still find
That we are fulfilled beyond belief
For committing to them is such a relief.
It brings a grand serenity to our soul
Knowing we have reached our infinite goal
So that when we leave, as we all will
We will be content and completely still
Because we leave behind our own creation
Which infuses our spirit with complete elation
For the grand objective of making money
Is to create the land of milk and honey.
